ABOUT US

At Capital Tax Recovery, our mission is to help solve one of the biggest problems that local governments face: revenue. One of the primary areas for increasing revenues is by enforcing existing laws that require individuals and businesses to pay taxes on motor vehicles in the town/city in which they reside. Our system focuses on revenue enhancing solutions for municipalities at no cost to the municipality or to its current taxpayers.

WHY CHOOSE US

- We identify the owners of improperly and unregistered vehicles not presently listed in a motor vehicle grand list and confirm residency over a 90 day period. In addition, we identify personal/business property not declared to the municipality and can provide evidence of such property.
- Amid the COVID-19 pandemic, Connecticut has seen an influx in the number of people moving into the state. In 2020, over 27,000 people moved to CT from New York alone - up 66.4% from 2019. ¹
- We are committed to providing the highest level of professional investigative services and customer service to our clients. We conduct thorough investigative research and provide evidence supporting residency to help tax assessors add prospective taxpayers to their grand list.

OUR SERVICES

State-of-the-Art Technology

We identify and document improperly registered and unregistered motor vehicles by utilizing ALPRs (Automated License Plate Readers) that photographs license plates and vehicles, and documents the GPS location and date/time of the vehicle.

Revenue Enhancing Solutions

Our solutions increase revenue without raising taxes on citizens by expanding the municipality's tax base.

Proven Track Record

Capital Tax Recovery is owned and operated by a licensed private investigator with over 20 years of experience. We have successfully conducted thousands of investigations assisting legal, business, government and private communities throughout the State of Connecticut.
